Expect 280,000 to Go in Autos Tomorrow.

BY J. L. JENKINS. Chicago's normal transportation failities swung into concerted action resterday to bear the greatest traffic

burden in the city's history.
With the lifting of all traffic restric tions in the downtown district and with parked cars cleared from loop streets, thousands of automobiles that were relegated to their garages on Monday were released to bear their share of the movement. As a result elevated lines, surface lines, suburbar trains and other common carriers were able to maintain their emergency schedules and congress crowds esti-mated between 200,000 and 250,000 people were moved into and out of the Grant park area.

Michigan Avenue Opened. Michigan avenue, the only downtown thoroughfare closed to motor traffic in the revised police orders, was op ened at 1 p. m. after Soldiers' field had cleared, relieving congestion on Wabash avenue, State street and other oop pavements. Michigan avenue wil be reopened to all regular traffic after crowds are cleared from Grant park again today, according to Capt. Patrick Hogan of the police traffic division, but he parking ban will remain in force With loop and stadium problems ironed out, Chicago traffic experts and the traffic regulating organization operating at Mundelein under the di rection of Lieut. There were some 6,000 nuns and about an equal number of women of the laity from various parishes—huge figures soon become com-monplaces in an event like the Euch istic congress.

Chorus Well Trained.

There was opportunity in my seat for what was perhaps a unique effect in choral singing. Some of the late coming choristers, mostly contraltos, had overflowed into the press seats. They were not many, but they were near enough and fervent enough to in-terpose a tonal wall against the rest of the chorus had it not been that the soprano singers sounded loud and clear out of the transmitting horns over the

PRINCE GUSTAVUS OF SWEDEN

Gustavus Adolphus, Sweden's crown prince who has been studying nearly 44 years to be a good king, presents, as he arrives in Chicago today with his wife, the former Lady Louise Mountbatten, the genealogical roundup of a host of far-flung factors. A poor soldier lad, the son of a humble French attorney, is his great-great-grandfather on his father's side: Jean Baptiste Bernadotte, marshal

Frank McClurs, Chicago, was redected chairman of the national advertising commission today at the convention of the Associated Advertising Clubs of the World.

Advertising was called a "professional essential to the well being of mankind," by Judge Vernon W. Van Fleet, member of the federal trade commission.

Instead of information, it is not advertising in its true sense. The false advertiser is the enemy of all honest business and brings all business into disreputs."

Advertising a community pays, it was generally agreed. "The first principle of community advertising," said Eugene T. ## Ready to Heat Today and Hereafter

Be convinced, and you'll be correct. Be convinced before you commit yourself to one unforgiveable error. Before you condemn the flock to sit and shiver thru the sermon. Before you hear the youngsters teeth chatter tell-tale chills in school that sound like a Morse code report of the home teams score.

One convincing proof of Kewanee's Unfailing Service of economical heating is the Universal Use of Kewanee Steel-riveted Firebox Boilers for the most permanent of organizations; for those institutions whose ancient rites proclaim thru each successive day and age a safe code of conduct based on infallible fundamentals.

You know it takes Uniform Strength of limb and joint to carry on both in season and out of season; so Kewanee builds boilers uniformly strongof steel, rivet-knit plates; form fitted to balance breathing stress from changing steam pressures; stoutly forged to resist unequal expansion from blazing-hot flames.

> The strength of steel plates and of every inch of riveted seams is known exactly, but it's just as the poet implies:

> "Other seams are not always what they seem" There is much truth in poetry.

All codes and rules alike are complied with but for good measure Kewanee also hammers its own reputation into each individual steel-riveted firebox boiler as a token that Heating Service in the supreme sense is assured.

Wherever valued endowments need protecting thru the longest possible period of years, there you'll find Kewanee known and used

## Oil Is a Big Little Thing

Oil is a little thing when motoring expenses are considered — hardly worth mentioning.

From the yearly expenditures of the United States on automobiles, as reported by the Bureau of Industrial Technology, the cost of oil is found to be only 2.14% of the total yearly automobile bill.

But oil, for all its insignificance on the expense account, is a big thing in the life of every car. Failure to realize this fact costs car

An engine must have oil or it will not run at all. It must have the right oil, or it will not run smoothly.

The reasons are quickly apparent. Fast moving surfaces within the engine must be protected with a thin film of oil that will withstand heat and friction. If this film breaks, surfaces chafe against each other, and parti-cles of grit grind them away. Repair bills and the gradual disintegration of your car are inevitable results.

Only the best oil, made especially to fit the only the best oil, made especially to fit the needs of your particular engine, can protect it adequately — Polarine is the perfect motor oil — the scientific product of years of painstaking work by the Standard Oil Company (Indiana) lubricating staff. There is a grade expressly made for your individual engine. That grade of Polarine lubricates thoroughly the remotest frictional surfaces. It will permit your engine to operate smoothly — and do its best work.

When you have actually cut down repair bills and learned the joy of a smooth running car by using Polarine—the perfect motor oil—you will appreciate the fact that oil is a big little thing.

## You wash dishes 1000 times a year!

## Let CHIPSO make it easier and pleasanter

3 times a day you wash dishes, 365 days in the year. Actually 1095 dishwashings! Don't you deserve all the help you can get? Here is CHIPSO!

What is it? A marvellous new soap, flaked thin for instant suds, that saves time, work and hands. Run hot water over CHIPSO-you have a dishpan full of foamy suds instantly. CHIPSO suds cut grease like magic, so there's no rubbing to be done, even on pots and pans-only a light mopping is needed.

**BIG** 

CHIPSO makes all cleaning and washing easier. When you use CHIPSO for the family wash, you no longer chip and melt hard cake soap. CHIPSO is flaked so thin, you get suds at the touch of hot water. No longer do you rub on a washboard. CHIPSO suds soak your clothes clean.

CHIPSO saves you time and strength. It is quick, economical and safe. It is a wonderful soap-in the most convenient form. You will see it on your grocer's shelves-packed in big blue-and-orange packages. Sealed tight against dirt and dust. To try it, buy the 10c size. To use it regularly, buy the big size. It is the perfect household soap. PROCTER & GAMBLE

in Service 6 Ward Electrics

The Ward Electric starts quicker, stops quicker, makes more deliveries per day than a gas-car or a horse. This has been amply demonstrated by Ward users.

On frequent-stop routes the Ward Electric cuts delivery costs; so that this clean, quiet, efficient form of delivery actually saves money.

#### The Center of State Street

A BIG institution that hopes to survive in The Loop must serve its public well. Loop competition is knife-edged. Vigilance is the price of success. Prices must be met. The market must be made to yield values. The Fair-the Center of State Street-throbs with the life of State Street. For fifty-one years it has been meeting State Street's problems, competing magnificently, its survival a triumph! And every year has seen changes that have increased its usefulness to the community.

# Beautiful Summer Dresses

Priced in 3 Attractive Groups

Sizes for Women and Misses

THE most favored new styles for every occasion on the summer calendar are arrayed in these groups.

#### Many Frocks for Sports Wear, \$10.95

Youthful sport frocks are shown in a splendid variety of styles and materials in our Sportswear Section, featured at the surprisingly low price of \$10.95. Included in this group are all wool flannel frocks in sleeveless style, two-piece silk dresses and tennis and golf dresses of washable silk in white and colors.

#### Silk Crepe and Georgette Frocks, \$15.00

You'll be delighted with the showing of silk crepe and georgette frocks offered at \$15. There are models of every type in dark hues and pastel shades.

#### Georgette and Chiffon Frocks, \$28.00

Truly distinctive new models are presented at \$28. Dinner and dance frocks of georgette and chiffon appear in a host of new designs and colorings. Of course frocks for street and sports wear are well represented. You'll be fascinated with the new styles and the wonderful variety of new colors. The Fair-Third Floor.

Where Smart Styles Are Always Moderately Priced

## Smart Flannel Coats

For the Summer Season

Sizes for Women and Misses

Flannel coats in white and pastel shades are favored by Fashion for pleasure wear at any time. They're seen everywhere during the morning hours when tennis or golf claims one's interest, later in the day when lawn fetes are attended and in the evening at country club dances. The models in this showing are made of an excellent quality of white and pastel flannel and are finished with large pockets and pearl buttons. Modish, well-made garments at a decidedly low price. Two months ago, I would have told you that I was pretty well satisfied with my smoking tobacco. I didn't know Prince Albert then! Gee, what a lot of tricks I missed without even knowing it. Never mind. I'm making up for lost time now. My jimmy-pipe is working double shifts.

I load up the minute breakfast is cleared away and hit it up from then until "lights out." That's one of the fine things about Prince Albert. You never tire of it. Each pipe-load tastes better than the last, if such a thing is possible. I know I'm set for life now.

Prince Albert is cool as a dip in the lake. No matter how hard you drive it, you never burn out a bearing. It is sweet as a check in the morning's mail. Fragrant, too, like fresh-picked flowers. Fragrant in the tin, and fragrant as you smoke it. Real tobacco, I tell you.

Maybe you think you are all set in the matter of smokings. I wouldn't stop there. Because, if you haven't smoked P. A., your best bet is still to be collected. On my say-so, and that of millions like me, why don't you try Prince Albert? I'll guarantee you'll be glad you did.

## **BUSINESS CYCLE BEING FLATTENED OUT, LEECH SAYS**

Fronts," by Foster and Catchings, July the announcement of a historical sum-mary of business variations by Dr. Willard Thorpe, under the auspices of the National Bureau of Economic earch, the Russell Sage foundation seport on variations of employment and the recommendation that closer statistical touch be kept on the rate employment. The modern statisti-

of employment. The modern statistical touch be kept on the rate of employment. The modern statistical agencies are seen to have had a hand in preventing heavy slumps in 1923 and 1924.

Dr. Thorpe has reached the conclusion that since 1790 the United States has enjoyed advancing industrial and compercial activity 60 per cent of the time. Festerday, in addressing the National Industrial Advertisers association at Philadelphia, Thomas F. Logan, the new president of Lord & Thomas, showed that the fluctuations of the last six years in terms of consumption of commodities have never varied more than 6 per cent from the line of normal growth. He attributes this greater stability to "Previous day." He attributes this greater stability to the trade mobility achieved through advertising, our better transportation plant, and service, and the improvement Springs.

creasing stabilization of business probably herald in the not distant future an intelligent and far sighted effort to control the economic cycle entirely, and to eliminate variations in the general price level, while retaining price as the regulator of production as between dif-ferent kinds of comedities. Destructive ism of capitalism began with the first knowledge of booms and depressions. Constructive criticism today is concerned

with variations in the rate of production Some hold that variability in the rate of production is inherent in a price and profit economy. Others, like Foster and Profit economy. Others, like Foster and Catchings, Prof. Irving Fisher, Reginald McKenna, and John Maynard Keynes, believe that the general price level may be kept stable by regulating the volume of bank credit in accordance with the rate of production and the industrial capacity of a country. Of course, at present we have probably insufficient rate of production and the industrial capacity of a country. Of course, at present we have probably insufficient statistical bases for any such machinery

nce of the private ownership of capi of its intrinsic merits as an automatic social control. A Socialist state has been forced to introduce it alongside state ownership, in order to maintain even a low rate of production.

So far as this writer knows, Bohm-Bawerk, the Austrian economist, first

Protecting purchasers of first mor dent or accidental death, by insuring installment payments is a plan announced yesterday by the Straus Brothers company. This follows a similar plan told about in this section last Sunday of insuring payments on real estate purchases in case the buyer in incapacitated in any way.

The Straus company's arrangement with an insurance company provides that the risk concern shall meet the payments as they come due for what ever time the investor is unable to do so because of sickness or accident. In the case of accidental death the insurance company will immediately make all payments due and the bonds will be turned over to the estate of the buyer. It is not stated whether or not this will be done in the case of death from Illness.

# The High Cost Of Excess Weight

Excess weight in motor trucks is expensive. It increases the purchase price and it costs as much to carry as an equal weight of pay load. Its cost is even greater, because it must be carried all the time.

Graham Brothers trucks have a larger proportion of pay load to chassis weight than is usually available in their respective capacities. Careful buyers are giving this due recognition, as their marked preference for Graham Brothers trucks indicates.

Built by the largest exclusive truck makers in the world-powered by Dodge Brothers dependable engine—these trucks are capable of an exceptional amount of profitable work over a long period of life.

## Experience

THE greatest single factor in good judgment is found in experience. In judging the soundness and permanent stability of an investment, a high degree of specialized knowledge and wide experience is necessary.

Successful men, who appreciate the value of experience in their own business, realize that the selection of sound investments requires the same degree of specialized experience in the financial field, and rely upon the judgment of established bond houses who have had the requisite experience in financing to be able to render sound judgment.

The organization of Lawrence Stern and Company is composed of men whose judgment has been tested by long experience in the investment field.

Every security that bears the recommendation of this company has been thoroughly analyzed, investigated, and approved by this organization.

We invite every one interested in sound investment to become acquainted with the personnel and with the policies of this house; and we believe that the varied and successful experience represented by the personnel of this organization can be of real value to you in the selection of your investments.

We have available today a diversified selection of real estate, municipal, public utility, industrial, equipment trust, and railroad securities. As an introduction, we suggest that you write for our current list, which we shall be glad to send without obligation.

### THE PINE CREST \$315,000

First Mortgage Serial 63% Coupon Gold Bonds

Dated May 5, 1926 Due Serially, 1928 to 1936 Interest payable May 5 and November 5

> Bond issue reduced in ten years to . . \$194,000 Present appraised value of security . 500,000 NOTE-The amount due at final maturity is approximately 385 of the appraised value of the security.

SECURITY This issue is secured by a direct closed First Mortgage on the land (62½ x 136 feet), owned in fee, and a six and eight-story fireproof spartment building to be erected at 3941-43-45 Pine Grove Avenue, Chicago. The mortgage is also a first lien on the income derived from the building.

BUILDING Fronting on Pine Grove Avenue,
The Pine Crest will have a height of eight
stories. The rear portion will be six stories in
height. It will contain eighty-five apartments
of one room, kitchenette and bath each, and
fifteen apartments of two rooms, kitchenette
and bath. Each unit will be completely and
comfortably furnished. Approximately seventy
per cent of the apartments will have an unobstructed view of Lake Michigan.

LOCATION Located at 3941-43-45 Pine Grove Avenue, The Pine Crest is ideally situated for a building offering one and two-room kitchenette apartments. The property is within two blocks

of Lake Michigan, close to Lincoln Park and in many attractions. Transportation to all parts of the city is furnished by motor coaches, surface lines and the Northwestern Elevated.

VALUATION The total value of the property is appraised at \$500,000. The ample serial payments of principal increase the margin of security which is already substantial.

EARNINGS Estimating the earnings of The Pine Crest on a very conservative basis, we believe the gross annual income will be in excess of \$82,000. Apartments similar to those provided by The Pine Crest, but in older and less attractive buildings, command rentals considerably higher than those upon which our estimate of income has been based. The net rental, after deductions for taxes, operating expenses and allowance for any vacancies that may occur, is estimated at over two and one-half times the greatest annual interest requirement. Areatest annual interest requires

Fifteen Year Seven Per Cent. Marine Equipment Trust Certificates

Due October 1, 1935

Notice is hereby given as provided in Article V of the Agreement dated October 1, 1920, between Ore Steamship Corporation, Guaranty Trust Company of New York, as Trustee, and Bethlehem Steel Company, that said Bethlehem Steel Company has elected to have redeemed on July 9, 1926, and there will be redeemed on that date at 102½% of their principal amount plus unpaid dividends accrued thereon to that date, all the outstanding Bethlehem Steel Company Fifteen Year Seven Per Cent. Marine Equipment Trust Certificates due October 1, 1935, which have not heretofore been called for redemption.

Said Certificates with all dividend warrants due on and after October 1, 1926 attached, should be surrendered for redemption on and after July 9, 1926, at the TRUST DE-PARTMENT of Guaranty Trust Company of New York, 140 Broadway, New York City.

On and after July 9, 1926, dividends on said Certificates will cease and the warrants maturing after said date will become null and void. Guaranty Trust Company of New York

By WILLIAM C. POTTER, President.

Referring to the above notice, the undersigned has been authorized by Bethlehem Steel Company to purchase any of the above-mentioned Equipment Trust Certificates on any date prior to July 9, 1926. Accordingly, upon the surrender of any of such Certificates to the undersigned at its above-mentioned Trust Department with all dividend warrants thereto attached which shall mature on and after October 1, 1926, the undersigned will pay 102½% of the principal amount of such Certificates so surrendered plus unpaid dividends accrued thereon to the date of such surrender thereof.

# Its far-reaching effect upon the industry

Everyone in the industry recognized many months ago that the beautiful Hupmobile Eight had evolved from the straighteight principle a new kind of performance and a new and almost incredibly higher value.

It was not long after the Hupmobile Eight made its appearance, that engineers commenced to tell motor car manufacturers there was no car in America to be properly compared with it.

### Hupmobile Eight Startled the Industry

The word spread about very quickly that probably only one car in the world was comparable to the Hupmobile Eight.

And that car was the product of the fine European engineering genius—a hand-built eight-cylinder car costing several times the Hupmobile Eight price.

What is happening in the automobile industry, however, goes deeper than this startling of automobile engineers and manufacturers.

The new development has to do with the way the American people now think of fine cars and fine performance.

And it goes straight back to the actual demonstration and proof—every day and all over America—of the revolutionary new kind of eight-cylinder performance and value offered by the Hupmobile Eight.

## An Uprooting of Antique Ideas

It is, in the first place, an uprooting from the public mind of the old-fashioned idea that mere price or name must necessarily mean prestige.

Motor car buyers are now sensing the prestige of super-fine performance, the prestige of the newest and the best when that newest and best is the super-efficient development of a super-efficient principle, as with the Hupmobile Eight.

So the Hupmobile Eight is, in a way,

erecting a new aristocracy of motordom, attracting to its banner the people who rate highly beauty and performance and value, and who buy with unerring, shrewd judgment.

In the second place, it is a new and better conception of what fine performance really is—and of the utter superiority of the eight-cylinder principle, as Hupmobile has perfected it, in providing such performance.

Now, at last, the public is discovering that no other kind of car, however well built, can ever give the kind of performance you find in this beautiful Hupmobile.

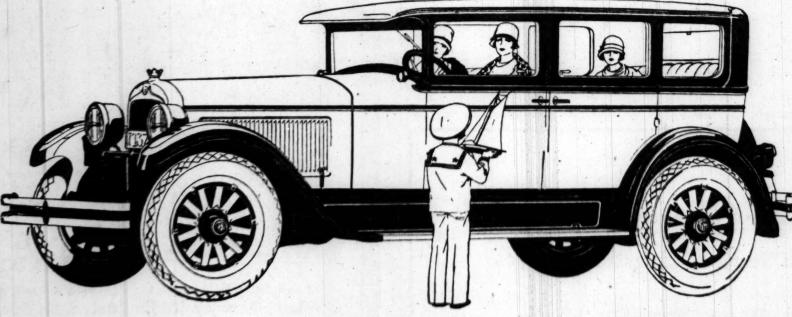

## Discriminating Buyers Discovered This Eight

It is for these reasons that that part of the public which instinctively turns to the finest in everything, discovered and advertised the Hupmobile Eight—and quickly made it the largest-selling straight eight in the world.

It is these causes which underlie the fact that the public is advertising the Hupmobile Eight even more enthusiastically today, and discovering it in increasing numbers everywhere.

THE LOVERS MEET AT LAST. The train left on time, so further delay was highly improbable. It was fortunate, of course, that John's passing through Fort William should be panned far and wide in this fashion, since that was the inevitable sequel, as he well knew. If fugitives from justice had ever grasped the essential fact est they were vastly safer in a crowded city than in the remote corners of earth they would escape more frequently. In London every man is a genger once he leaves his own door. In Fort William, as in this instance, of even a dog can pass without being noticed. It was quite certain that a lision, a dog fight, and the return of the heir to Inverlochtie, all bound up her would cross the county from sea to sea before nightfall.

That persistent policeman thought it his duty to see John and Spot safely ises, so he strolled into the station a few minutes before the train ried. He observed that the two were traveling first class, and was passing ing the platform toward the exit when some one hailed him from a third "Isn't that man with the dog the Honorable John Panton?" came the

#### Dawn of Greater Day for Christianity Seen by Dr. James S. Stone BY THE REV. W. B. NORTON.

An advance in Christianity in the ast half century was described and prophecy of still better days was made yesterday by Dr. James S. Stone, pastor emeritus of St. James' Episcopal church, to whom was tendered a comlimentary luncheon at the University

Dr. Stone was ordained to the priest good fifty years ago at Trinity Episcopal church, Philadelphia. He was resented yesterday with a books and congratulatory addresses. He cited the Eucharistic congress as evidence of a growth in faith and an ndication of still greater progress in the future.

"When I went into the ministry I had a feeling that the struggle of Christianity for recognition was half lost," Dr. Stone said. "It was a time when the church was rent with the claims of science on one side and skepticism on the other hand. It was a common belief that the reign of Christ was nearing an end.

"At the close of fifty years it is significant there is gathered in this city the greatest body of Christians ever assembled here. The only power that could have brought these thousands to Chicago is the power of Christ. It is because the people love Him and adore Him as king that they Mr. and Mrs. John De Haye, 1510 are here. Use only a true complexion soar

ONE of the first "don'ts" in skin care, if you wish to saleguard your complexion, is "don't" experi-ment with untried soaps. Beauty experts arge daily cleansing of the skin and pores with soap and water. That's judged of prime importance. But you must use the right soap. That is, a true complexion soap.

That is why Palmolive is so widely That is why Palmonve is so when yinged. It is a unique soap; a soap made of rare cosmetic oils for ONE purpose only, to safeguard the complexion. Before it came women were told "use no soap on your faces." Soaps then were judged too harsh. Remember that point when tempted to "experiment."

Use daily in this way—it is Na-ture's formula to "Keep That Schoolgirl Complexion."

## Best Blood Purifier Is Exercise, Bathing, and Proper Eating

A correspondent asks my advice about a blood purifier. She has an idea that one's blood should be thinned out for the summer. She feels heavy although she is not overweight, and is loggy and disinclined to move about skin is extra greasy in warm weather, too.

There used to be a large body of otherwise intelligent folk who believed spring had not arrived until the su phur and molasses jar was produced or the sarsaparilla man came knock ing on the back door. But public in struction in hygiene has relieved most of us of the idea that spring and sum ner tonic comes in bottles. We know now that you don't purify the blood by forcing some vile tasting or vil-smelling dose into the stomach. Blood is purified in our modern days far more intelligently and effectively by the eating of pure food and th liberal drinking of pure water and by providing for the proper action of skin, kidneys and bowels. Blood is purified by getting rid of its impuri-ties. If the body is supplied with wholesome diets well supported by greens and fruits, if the process of ligestion is kept healthy and the stom ach and bowels kept free from putrid masses of food, nature takes care of the purifying by passing out the liquid by throwing out the gaseous poisons

through the lungs.

The work of blood purifying, then, onsists in following out common sense directions encerning proper breathing. water drinking, bathing, eating, diges-tion and daily exercise.

It is helpful where one feels heavy and logy to subsist solely upon a fruit diet for three or four days. Three or four times a day eat liberally of fresh fruit. Pure, unfermented fruit juice is perhaps the simplest way of taking the diet, orange juice being particular-ly effective in quickly and thoroughly cleansing the system. This is a good breath, constipation, etc. The summer dlet, naturally, must be a lighter one although it is necessary to retain the well balanced menu foods that produc

Here is a chance to prove for yourself that you CAN get rid of that oily, shiny look which ruins so many complexions.

A wonderful new cream called Vauv does it! Put it on in the morning, powder over it—and for hours your nose will keep just that dull, velvety look you want it to have. One girl says: "I have tried nearly every cream on the market, but Vauv is the first one that really does get rid of shiny nose. The longer I use it the less I have to powder. My skin secums to get smoother every day, and blackheads have disappeared."

Try it for yourself. Go to any drug or department store and get a 50c tube of VAUV. Use it for one week as directed. Then, if you are not entirely satisfied, mail me the tube and I'll refund your money and postage.

Be free at last from that worst of postage.

Never Before Such Buying Opportunities. Europe's Finest Merchandise at Lowest-in-the-World Prices

Buyers from forty-four great commercial nations made last year's Fair a buying occasion of world importance.

For 700 years the famous Leipzig Trade Fairs have been growing steadily until today, they attract the largest international assemblage of buyers and sellers, because the Leipzig Trade Fairs are the only fairs where such a collection of all-European wares at such unheard of values is regularly being brought before the American business men.

Merchandise that will definitely appeal to the American public will be offered at new low prices: not alone German merchandise—fine optical goods, glassware, machinery, toys, textiles, jewelry, chemicals—but also Czecho-Slovakian glass and china, Austrian novelties, Swiss, Hungarian and Italian specialties, Russian furs and raw materials, and thousands of other items that represent the crafts of all Europe.

No importer should miss it: manufacturers should consider it. Three million square feet of modern in-

An efficient organization courteously provides the American business man with interpreters, bulletins, directories, and keeps him in constant touch with the latest developments and opportunities of his branch.

Let the American office of the Leipzig Fair help you in your preliminary preparations! Go to Leipzig for Europe's best and the World's lowest-priced merchandise.

OPENS LOOP OFFICE. We have just opened a new office in the Loop, which will house our Investment Service activities and the Employment Office of our Subdivision Sales Dept. The opening of this branch office, which is located at 39 St La Salle-st., marks another big step in the growth of Krenn & Dato.

NEW OPPORTUNITIES FOR SALESMEN AND SALES MANAGERS.

Krenn & Dato salesmen are making more money than ever before because of the reputation of the firm and the well advertised properties they have to sell. Our subdivisions are the finest on the market. The variety of locations and prices is such that a sale need never be lost for a Krenn. & Dato salesman. You can sell our properties in Niles Center, Highland Park, North Edgewater. on the North Shore, and in the Calumet District. Where else can you find such a lineup of high grade properties being

sold by one firm? Active salesmen, we offer you the one best connection. We want no drifters or failures from other organizations; we want men and women willing to sell high grade properties according to Krenn & Dato business standards. If inexperienced, we teach you how to sell in our Free School of Realty Salesmanship. Apply
